

LCC Golf Guidelines (Effective June 19, 2020)

Medical professionals have instructed us generally to limit contact with “common touch” areas, to maintain “social distancing” and to wash our hands frequently. In addition, the State DECD and CSGA have provided guidelines and directives that apply to golf courses in CT. The Board, in conjunction with the Men’s and Women’s Golf Chairs, has adopted guidelines, set forth below, which adapt those instructions to golf at our Club. We don’t know how long these guidelines will be in effect. The Board will monitor events and adjust the guidelines as prudence dictates. **Per the DECD/CSGA, all members who are on the course or using the golf facilities must have a mask on their person or in their bag, and must use it as outlined below.**

Clubhouse

The locker rooms, lockers and the basement storage areas are open to members, with guidelines (included below), which are posted outside/inside of each of these spaces. The bathrooms adjacent to the locker rooms will be open.

Locker Room Guidelines

MASKS REQUIRED if more than **one** member is in the locker room at one time.

Maximum of 4 members allowed in the locker room at one time; please try to observe social distancing rules!

Each member should only handle/touch their own locker and equipment; should a member require staff assistance with equipment, proper wipe down procedures should take effect. Wipes are available in the locker room and bathroom for staff and members to use to safely do so.

Benches may be used for the purposes of putting on/taking off footwear and organizing equipment. **Members are asked to refrain from lingering or visiting in the locker rooms at this time. Please go outside to visit with your fellow members and friends!**

Golf Shop

The Golf Shop is open with the following **guidelines** in effect.

MASKS REQUIRED if more than one person is in the Shop at one time.

Maximum of 2 members (and two staff) allowed in the Shop at one time; it is a small space but please be cognizant of social distancing rules!

Members are asked to refrain from lingering or visiting in the Shop at this time. Please go outside to visit with your fellow members and friends!

Warm-Up Area

This area will be open but balls will not be provided at least for a while. You are welcome to hit your own shag balls (with short irons only) and are expected to retrieve them.

Golf Course

There will be no water coolers or ball washers on the golf course. Rakes, benches, and traditional flags are now in place. Members may use this equipment as they feel comfortable. If you prefer not to use rakes, please smooth the disturbed sand with your feet.

Golf Carts

Carts are available for member use; members of the same household may share a cart with no restrictions. Members who do not share a household may share a cart provided both members wear masks and only one person drives throughout the round. In addition, please

- maintain social distancing of at least 6 feet at all times,
- refrain from touching any permanent structure or fixed object on the course.
- handle only your own equipment and
- refrain from picking up discarded items or stray golf balls.
